Costa Palmas East Cape is a new exclusive community in Los Cabos; this private retreat boasts its own marina, golf course and village, plus organic farms, orchards and an estuary. Located within Costa Palmas are these residences, 141 spacious homes – available on the golf course, beach or marina itself – where the interiors and exteriors seamlessly blend. The resort also hosts multiple pools, a sports complex, a spa, and five concept restaurants. Private villas in four distinct bespoke designs are available too, and you can even design and build your own. Set to open early 2019.
